

MRS. BOHNEFELD HOLDS UP PETITION TO GET A PENSION

Mrs. Mary Bohnefeld, the police matron, who has prepared a petition asking for a pension, stated Wednesday afternoon that so many of her friends and so many of the city officials had requested her to retain her position a while longer that she was in doubt as to whether or not she would push the matter.

"I will hold up the petition a few days," she said Wednesday to a Constitution reporter. "I have served the city for twenty years, seven years with the Grady hospital and thirteen years as police matron. I am now 63 years old and I would like to rest from official work. It seems that I have pleased the city government so well that they don't like the idea of letting me retire. I believe, however, that since I am entitled to a pension I will file the petition."

FRANK PARDON PLEA WILL BE COMPLETED WITHIN A FEW DAYS

The preparation of the petition for Leo Frank's life to be presented to the prison commission and governor by his counsel will be completed, it is thought, within the next few days. The first conference between attorneys was held in the office of Leonard J. Haas Tuesday night. A second conference was held last night, in which were included H. A. Alexander, Luther Rosser and Reuben Arnold.

Much interest is being centered on the selection of counsel to argue the petition before the commission. It is generally believed that Reuben Arnold, who delivered one of the most forceful arguments at the Frank trial, will be decided upon. No definite decision, however, has as yet been reached.

D. A. R. AND U. D. C. WANT LIBERTY BELL SHOWN IN ATLANTA

The local chapters of the D. A. R. and the U. D. C. will make a personal appeal to Mayor Blankenburg, of Philadelphia, to have the famous Liberty Bell brought to Atlanta in its trip to the Panama-Pacific exposition, where it will be taken for exhibition.

The matter will be taken up at the next meetings of the Daughters of the American Revolution and the United Daughters of the Confederacy and the details of the petition arranged. New Orleans will lend its co-operation, as that city is anxious for the opportunity of seeing the bell.

PLANS ARE COMPLETED FOR CONKLIN LECTURE

Arrangements have been completed by the Atlanta Anti-Tuberculosis association, with the assistance of the Atlanta Ad Men, for the free lecture on tuberculosis prevention by Dr. J. Wade Conkling, chairman of the association's educational committee, at the Grand opera house next Sunday night at 8:15 o'clock.

The lecture will be accompanied both by stereopticon and moving picture views illustrative of the dangers of tuberculosis, and showing methods of prevention. The lecture has been arranged under the auspices of the Ad Men, in pursuance of the educational feature of the association's work.

The public is cordially invited to attend this lecture. It will be absolutely free and no collection will be taken.
